

Multi-Mam[®] Balm

READ THIS ENTIRE INFORMATION LEAFLET CAREFULLY BEFORE YOU USE MULTI-MAM BALM AND KEEP IT FOR REFERENCE

MULTI-MAM BALM NIPPLE CARE FOR BREASTFEEDING MOTHERS

- Soothes and protects nipples
- Keeps the skin soft, supple and healthy
- For the care of dry and sensitive nipples
- Helps replace and supplement the natural skin fat
- Has a neutral taste and smell

HOW MULTI-MAM BALM WORKS

Multi-Mam Balm replaces and supplements natural skin fat and in this way protects the nipples from cracking before and during breastfeeding period. Multi-Mam Balm is based on plant-derived oils and on purified beeswax.

DIRECTIONS FOR USE

Wash your hands and gently wipe dry. Squeeze out a generous amount of balm. Gently apply on your nipples and areola. Use Multi-Mam Balm at least twice a day. For optimal protection apply Multi-Mam Balm after each breastfeeding. The balm does not need to be removed before breastfeeding, as the formulation is safe for your baby.

Please note: In environments with a high temperature, Multi-Mam Balm may become more liquid. If this occurs, shake well before use.

MULTI-MAM BALM IS BASED ON NATURAL INGREDIENTS

Multi-Mam Balm is based on a selection of plant-derived oils. The composition is natural, with a neutral taste and smell.

INGREDIENTS

Helianthus Annuus seed oil, Butyrospermum Parkii butter, PEG-8 Beeswax, Squalene, Polyglyceryl-3 Ricinoleate, Propyl Gallate.

ALLERGY INFORMATION

Allergies to the ingredients of Multi-Mam Balm are very rare. When you have doubts, apply a little bit of Multi-Mam Balm on the inside of the forearm. When an itching red spot appears we advise you not to use Multi-Mam Balm.

STORAGE

Store out of sight and reach of children in the original package at room temperature between 10°C and 25°C.
